

there are currently no generic claims. Claims 1-12 are, however, generic with respect to both Species A and Species B. The ILIT 104 is part of the best mode shown in Figure 3, which figuratively illustrates an embodiment of the invention and also includes the embodiment of Figures 4a and 4b. Independent claim 13 includes the limitations of claim 1 and adds the step of establishing an ILIT; these steps are included in claims 14-24, which depend from claim 13. Independent claim 25 also adds the step of establishing an ILIT, plus other steps, to the steps of claim 1.

Although the Examiner noted that "the ILIT features are not shown in any drawing," the ILIT 104 bears no features relevant to the invention that could be further depicted beyond that shown in Figure 3.

CONCLUSION

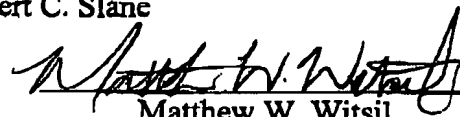

If the Examiner has any questions about the present Response or anticipates final restriction that rejects the traverse made herein, a telephone interview is respectfully requested.

Respectfully submitted,

Robert C. Slane
